DOSAGE AND ADMINISTRATION

To be determined by dietitian or clinician.

Each sachet provides 50mg of Valine.

PREPARATION GUIDELINES

To be used in conjunction with a protein substitute for Maple Syrup Urine Disease.

For example:

Pour the contents of the Valine AA sachet into a beaker with a sachet of MSUD gel or MSUD express.

Add water as instructed, replace the lid firmly and shake for 10 seconds.

Drink immediately.

For the best results the product should be freshly prepared and when possible used immediately. However, if necessary store in a refrigerator and use within 24 hours - re-shake before use.

IMPORTANT INFORMATION

The product must only be given to patients with proven Maple Syrup Urine Disease under strict medical supervision.

Not to be used as a sole source of nutrition.

This product is not for intravenous use.

Not to be used in children under 12 months of age.

STORAGE

Store in a cool, dry place.

PACK SIZE

Valine Amino Acid Supplement is available in packs of 30 x 4g sachets.
